

Five Candles

Five little candles in the night.

Five little candles, burning bright.

Along came the wind...Shooooo...all is quiet,

Four little candles burning in the night.

Four little candles in the night.

Four little candles, burning bright.

Along came the wind...Shooooo...all is quiet,

Three little candles burning in the night.

Three little candles in the night.

Three little candles, burning bright.

Along came the wind...Shoooooo....all is quiet,

Two little candles burning in the night.

Two little candles in the night.

Two little candles, burning bright.

Along came the wind...Shoooooo....all is quiet,

One little candle burning in the night.

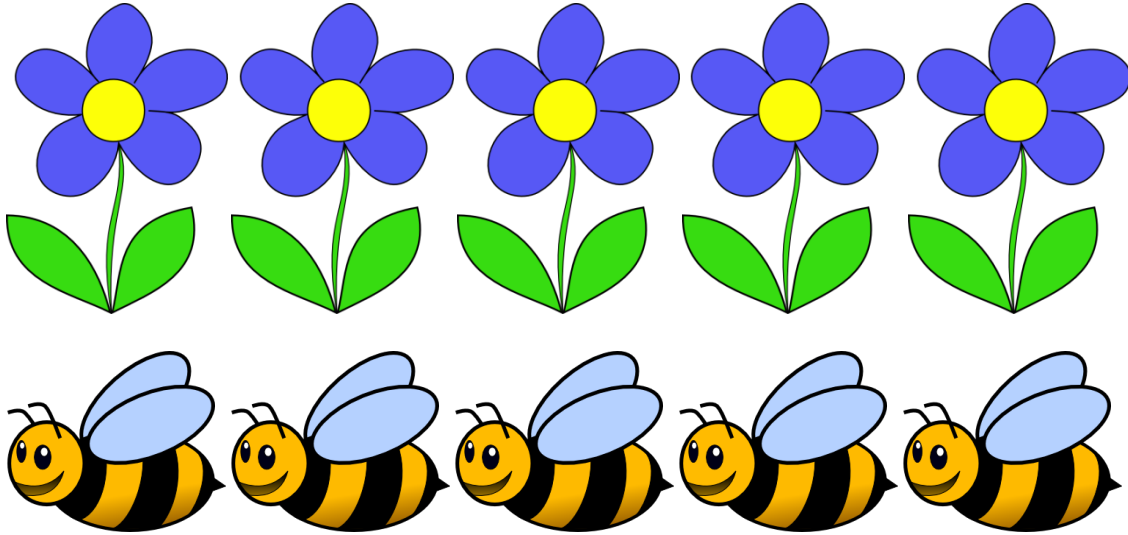

One little candle in the night.

One little candle, burning bright.

Along came the wind...Shoooooo....all is quiet,

No little candles burning in the night.

Five Little Flowers, Five Little Bees

Five little flowers, five little bees,
Five little blue birds, high in the tree,
Five little brown bears smiling at me,
Five is the number I like you see!
