

The Prefabs

(Mr. Meade's Class)

Scoil Bhríde was built in 1986. Due to rising numbers each year the school needed extra classrooms in 1990 so they purchased their first prefab. As the years went on, more prefabs were erected, some purchased and others rented.

There are currently 11 prefabs in the school.

Each prefab has a number of classrooms. Some prefabs have very spacious classrooms while others have cramped classrooms.

Each classroom has its own sink area with shelves and presses for storage.

Each classroom has two toilet cubicles.

Each classroom has a fire exit door.
